DETAILED ACTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-14, 20-31, 53, drawn to a porous article with an organic polymer resin and inorganic ion absorbing material supported on the outer surface of the membrane and inner surface of the cavities.

Group II, claims 15-19, drawn to a method for producing a porous article comprising the steps of mixing the organic polymer resin, good solvent, inorganic ion absorbing material and water soluble polymer.

Group III, claims 32-52, drawn to a method for treating ions comprising contacting a liquid with a porous formed article.

The inventions listed as Groups I and II do not relate to a single inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features. Specifically, JP 09-187646, MORI et al. (hereinafter MORI) discloses a similar special technical feature. The special feature disclosed as a three-dimensional porous network structure [fibril] made of organic polymer resin with pores that open at an outer surface and access the interior (Para. 5) and inorganic ion absorbing material (Para. 7) that is supported on the outer surface and inner cavities of the three-dimensional network (Para. 9).

2. A telephone call was made to Mr. Arthur Garrett on 5/7/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
